To,

Dr. R D Sharma
University Institute of Technology
India

Dear Dr. R D Sharma,

I am writing this email with regard to your research paper entitled "**An Improved Simple Robust Cheap and Potential Diagnostic Device for Lead**". I have read your research online and found its conclusions remarkable. This significant work has the potential to inspire fellow researchers and scientists working in the same domain. In fact, I have also shared the findings of your research paper with my colleagues.

I was impressed by your research aptitude and a profound understanding of your field of study. I found that your research matches the scope of our journal and would like to invite you to associate with us. Our editorial board, management and I have agreed to recognise you as an **honorary Rosalind Member of London Journals Press**. Your Membership ID, **#ND68610**, is valid for the quarter of this year.

As you might already know, London Journals Press (UK) is an internationally acclaimed publication organisation and accreditation authority for research standards. We follow the standards of Cope and UK Research and Innovation (Research Councils, United Kingdom) and are associated with researchers in all the leading disciplines, such as computer science, engineering, science, management, medical and social science and humanities.

Your work shows your research aptitude, a rational approach and a profound understanding of your field of study. Thus, I wish to encourage you to publish your next research paper in our international peer-reviewed, refereed journal. You are requested to confirm your review slot before the 15th of the upcoming month for the next issue.

We follow a comprehensive and extensive peer-review process that is time-consuming. Following the convention, your paper will be reviewed on a priority basis since you belong to the Council of Rosalind Members.

You can read more about London Journals Press, our core ethics and our values at the website journalspress.com

I look forward to hearing from you soon and having a successful academic relationship in the future.

Regards,

Dr. Shannon Miles

Dear Dr.,

We're are glad to have you onboard with us.

Soon our support team will be emailing you the credentials for your login to our member platform portal. On the platform, you can enter your complete details like your bio, research interests, academic profile, etc. and it'll be visible on your profile page that you may share with others as well and use it in your career details. This profile will be shared with other researchers, scientists, scholars and professionals as well when they'll look for collaborations. We're strictly against spamming and we'll never share your profile for that and will restrict our partners for the same.

Your Membership is derived from Author Membership with more benefits and privileges. As a part of this honorary membership, the "Membership Fee" is fully waived off for you. Also, the Publication Fees (APC) for your next two research papers are also hugely discounted. As a part of this, you'll be getting early invitations to all our conferences, seminars, symposiums and webinars worldwide. You'll be receiving premium tools from our partners and us that'll help you in your next research. An individual DOI will be facilitated to your subsequent research papers/articles published with us. Your researches will be getting early nominations for London Journals Press Yearly Awards as well. We'll also assist you to connect with fellow researchers associated with us and are working in the same domain and looking for collaborations on our platform.
