

Capacity Building and Skills Enhancement Initiatives

Session-2021-22

With an aim to prepare active, responsible, Industry ready and engaged citizens, Career College, Bhopal on its part provides necessary assistance to students so that they are able to acquire meaningful experiences at the campus and thus facilitating their holistic development and progression.

In today's world professional environment demands certain fundamental characteristics from employees such as personality traits, behavioral patterns and social attitudes in order to communicate collaborate and administer challenges effectively. Few of the initiatives organized the session 2021-22 are as follows:

SOFT SKILL DEVELOPMENT INITIATIVES

Students who recognize the importance of soft skills on time are able to master their studies more successfully, complete their student obligations smoothly, make more acquaintances that may prove useful in the future, and better present themselves to professors who can also play an important role in their future. Career College on its part helps and guides the students for developing better Soft Skills and for this the PADC cell of the college organizes several programs at regular intervals for all. Some of the initiatives are as follows:

Guest Lecture on “How to Manage Your Time and Stress Even Better”

Personality assessment and Development Cell organized a Guest Lecture on 26th Feb 2022 on the topic “How to manage your time and stress even better.” Dr Charanjit Kaur, Principal, Career College welcomed the speaker of the webinar, Mr. Mahendra Joshi, Motivational Speaker, Corporate Trainer, Psychologist and Counselor. According to his views, most of the people lies in between pressure and tension as the part of life. He motivatedly spoke about time management and discussed about principle of success by resolving the tension with relevant examples of daily life. All the participants have benefitted by teaching of surroundings in association with updates and up gradation. While the delivery of lecture he has described

about the attentions and relationship of energy where he had concluded about active efforts to release stress which was very much needed for the youth of today for spherical development and challenges.130 students benefitted.

Guest Lecture on “Mental Health Care for all: Let’s make it’s realty”

Personality Assessment and Development Cell organised a Guest Lecture on 12 October 2021 on the topic “Mental Health Care for all: Lets make it’s realty.” Dr. Charanjit Kaur, Principal, Career College welcomed the speaker Dr. Monica Shringirishi, Asst. Prof., Chirayu Medical College, Bhopal and Priya Sonpar, Counselor . She discussed with issues like personal problems faced by individuals, anger management, dealing with anxiety – social anxiety, stage fright, fear of exams and interviews, relationship problems, etc. Mainly aims at improving the mental health of the students so as to bring about self improvement and healthy environment in the college amongst students.

Lecture on Importance of Social Growth and Emotional Growth

The Department of Physiotherapy has organized a Lecture on importance of social growth and emotional growth in students on 1st July 2021. The expert speaker for the lecture was Dr. Namrata Shrivastava, HOD, Department of Physiotherapy, Career College, Bhopal. It was organized for the development of personality in terms of their social and emotional wellbeing. Total 53 students have been benefited through this important lecture. Students have actively participated as learner. They have learned skills of social behavior and emotional stability in everyday life.

Lecture on Professional Ethics

Professional ethics are principles that govern the behavior of a person or group in a business environment. Like values, professional ethics provide rules on how a person should act towards other people and institutions in such an environment. Professional ethics is important because it dictates to professionals a series of rules related to the way professional acts towards the people with whom he/she

relates professionally. From a philosophical point of view, ethics has to do with morality and with the way people act in the sense of goodness or badness. Owing to the importance of professional ethics in today's world a Lecture on Professional Ethics was organized by Department of Commerce and Management, on 7th March 2022. The speaker on this occasion was Mrs. Namrata Ganguly, Career College, Bhopal.

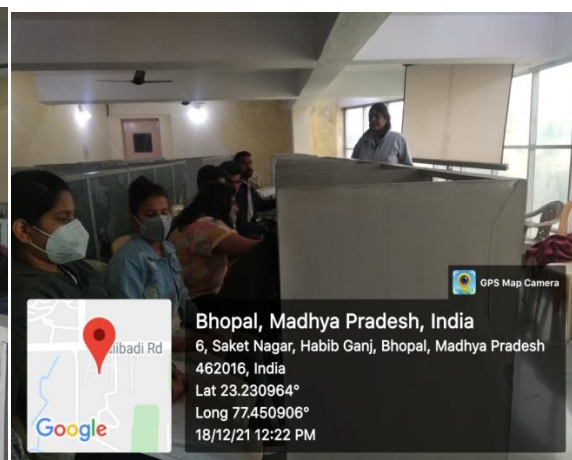

LANGUAGE AND COMMUNICATION SKILLS

Language is a vital part of human connection. Although all species have their ways of communicating, humans are the only ones that have mastered cognitive language communication. Language allows us to share our ideas, thoughts, and feelings with others. It has the power to build societies, but also tear them down. Understanding how to communicate effectively with peers sets the stage for positive self-esteem. Students feel empowered when they can “talk the talk” in their social lives. Effective use of oral communication also allows students to advocate for them. Moreover Good communication skills will help get hired, land promotions, and be a success throughout their career.

Career College on its part helps and guides the students for developing better communication skills and for this the PADC cell of the college organizes several programs at regular intervals for all. Some of the initiatives are as follows:

Presentation cum Workshop on “Behavioural Skills in Communication and Vocabulary”

Personality Assessment and Development Cell organised six days presentation cum workshop on Behavioural Skills in Communication and Vocabulary for PG & UG I Year students from 13/12/2021 to 18/12/2021 in Language lab. The students learnt about all the basics of communication and vocabulary building which will be helpful to them in improving their communicative skills as well as in various competitive exams. The workshop mainly focussed on various areas of communication and also the ways to improve them which will help the student in confidence building and become a better individual both professionally as well as personally. Around 200 students spread over different streams of arts, science and commerce as well were benefitted by this workshop.

Personal Counseling Session

The PADC cell provided facility for counseling from **04/10/ 2021** for all the students. **Ms. Priya Sonpar**, Counselor and Consultant Psychologist, actively provided counseling to students. Mental health and social well-being of a person is as important as physical health and other social status. Studentship is a period where an individual is facing multiple situations and needs care and guidance.

In this light, we have counseled 74 students in the academic year, 2021-2022.

Students have positive regards towards the counselor and visit her often.

Online Lecture on Resume Writing

Department of Commerce and Management Organized an online Lecture on resume writing on 19 Feb 2022. The resource person for the event was Mrs. Shreedevi Nair, Assist. Professor, Career College, Bhopal. A total of 39 students benefitted by the talk. The speaker emphasized on the importance of resume for any job application. She briefly explained about how your resume communicates your qualifications and your brand—who you are and what makes you different—to employers and recruiters. In a tough job market, you need a resume that helps you stand out in a sea of applicants. Ultimately, the purpose of a strategically targeted, polished resume is to get you an interview. She also explained the importance of cover letter and how it acts as a personal introduction and helps to sell your application. A cover letter is necessary as it gives you the chance to explain to an employer why you're the best candidate for the job.

Lecture on Speaking, Listening & Communication abilities

The Department of Physiotherapy has organized a Lecture on speaking, listening and communication abilities on 19th November 2021. It was organized for the development of personality in terms of their social listening and emotional wellbeing. Total 45 students have been benefitted through this important lecture. Students have actively participated as learner. They have learned skills of social behavior and emotional stability in everyday life by introducing patiently listening and good communication power. The expert speaker was Mrs. Neelam Shukla,

LIFE SKILLS

In everyday life, the development of life skills helps students to find new ways of thinking and problem solving. It recognizes the impact of their actions and teaches them to take responsibility for what they do rather than blame others. It builds confidence both in spoken skills and for group collaborations and co-operations. Few initiatives to develop students' skills for tomorrow's challenges are by teaching collaboration as a value and skill set, build on evaluation and analysis by various competitions, teach tolerance and resilience, help students learn through their strengths and use learning beyond the classroom.

Career College on its part helps and guides the students for developing better Life skills. The various cells and Departments organize several programs at regular intervals for our students. Some of the initiatives are as follows:

Webinar on “How to be successful in life”

Personality Assessment and Development Cell organised a webinar on 22 October 2021 on the topic “How to be successful in life.” Dr. Charanjit Kaur, Principal, Career College welcomed the speaker of the webinar, Prof. S.S Sandhu, Director, Design Innovation Centre and Professor, Biological Sciences, R.D University, Jabalpur. According to him Success is the basic result of applying some basic principles such as goal setting, determination and the desire to success. He further added that desire is the starting point of all accomplishment and great results cannot be obtained without a strong desire. He emphasized on proper planning before commencement of any task. He discussed that motivation plays an important role in achievement of success. He also discussed the role of other factors such as discipline, mentorship, oral expressions, writing abilities, attitude etc which may help to achieve success. His lecture was very fruitful and motivational and will help the young generation to focus on their goals and incorporate his valuable suggestions to succeed in their lives.

The poster is for a webinar organized by the Personality Assessment and Development Cell (PADC) at Career College. It features a circular portrait of Prof. S.S. Sandhu, a man with a beard and glasses wearing a turban and a suit. The text on the poster includes the college's name, location (Govindpura, BHEL, Bhopal, India), and accreditation (A+ NAAC Grade By). It also mentions 52 years of academic excellence. The webinar title is "How to be successful in life" and is scheduled for 22nd Oct 2021 at 12:30 p.m.

Personal Healing Seminar on the topic "Expand beyond horizon of Learning

Self-healing refers to the process of recovery, motivated by and directed by the patient, guided often only by instinct. Such a process encounters mixed fortunes due to its amateur nature, although self-motivation is a major asset. In the form of activity, self-healing can be done in various ways such as relaxation through breathing; contemplation with meditation or yoga, and creating positive emotions that will have an impact on the emergence of endorphins or often called 'happy hormones'. Furthermore, art-therapy can also be a solution. To deal with the stress in today's world and to teach self healing to students a seminar on Personal healing on the topic "Expand beyond horizon of Learning" was organized by the Department of Chemistry, Career College, Bhopal. The speaker for the seminar was Dr Rakshit Ameta, Astrologist, Career Counselor, Personal Coach, Director, Faculty of Science, JRN Rajasthan Vidyapeeth, Udaipur. The event was wonderful and highly beneficial for all.

Training Program on Life Skills Yoga

Department of Computer Science has organized Seven days Life Skill activity from 23th May, 2022 to 30th May, 2022 for the students at Career College, Bhopal. The purpose of organizing this Life Skill activity 'Yoga' is to help the student to built strength, improve posture, reduce stress, various fears and mental disorder and develop self-discipline and self-awareness if practiced regularly. The session was coordinated by Mrs. Jyotsna Kanungo, Department of Computer Science. It was attended by the staff members and the students of the college. Vote of thanks was given by Mrs. Rubybala Pathak, Department of Computer Science.

Stress Management: Training on Surya Namaskar

Regular practice of Surya Namaskar helps you calm down and free yourself of worries and anxiety. It normalizes the activity of the endocrine glands, especially the thyroid. Due to the rhythmic and active breathing process, the lungs are thoroughly ventilated and the blood gets highly oxygenated. A training on Surya Namaskar was organized by the Dept. of Physiotherapy was organized for the students on 13/1/2022 by Dr. Kalpana Jain, Assistant professor, Career College, Bhopal.

Awareness program on Importance of Cleanliness

A cleanliness awareness campaign program was organized in Government Secondary School Govindpura Bhopal by the Computer Department of Career College. In which the importance of cleanliness was explained to the students through various activities. Dr. Rupali Vishwakarma of the department welcomed the principal of the school, Mr. Sunil Kumar Srivastava, and motivated the students to engage in social activities. On the other hand, Professor RoopKishori Sharma of the department while telling the important points related to cleanliness to the students said that we should take care of cleanliness not only in our house but also in our school around our house. If possible, we should try to plant more and more trees, which is a worthwhile initiative in our environment protection. In this program, the importance of cleanliness was explained to the students through animation videos explaining the process of hand washing in an experimental manner. Asad Khan, Garima Singh, Priyanshi Sharma, Aman Zaria played an important role in the cleanliness camp, mainly as student volunteers. The drive inculcated the feeling of responsibility of ideal citizenship among our students.

Workshop on Yoga and Meditation for a week

A Yoga and Meditation workshop was organized by the Department of Humanities from 25-04-2022 to 30 -04 -2022. The resource person for the workshop was Yogacharya Mrs. Jyoti Chouhan, M.Sc. Gold Medalist in Yoga and Media, Professionally CA.

International Yoga Day- 2021 celebration

International Yoga Day celebration was organized in the Career College Auditorium on 21st June 2022. Capt. Manoj Selokar, NCC and Sports Officer conducted Yoga session for the students and faculty of the college. All participated enthusiastically and found the session very fruitful.

Environment Awareness Campaign cum Cleanliness Drive

A cleanliness awareness program was organized by the Green Cluster Cell of Career College, Bhopal at Joggers Park Saket Nagar Bhopal which is also an adopted park for maintaining cleanliness. Students were accompanied by the faculty members and participated enthusiastically in the cleanliness drive.

Interactive seminar on Control and Management of Communicable diseases

An Interactive seminar on Control and Management of Communicable diseases was organized by Department of Microbiology on 05/02/2022. The expert for the lecture was Dr. Bhupendra Prasad, Career College, Bhopal. The lecture was very informative and fruitful.

Date:05/02/2022

Time:12 noon Venue: Room No:44

Organized by
Dept of Microbiology
Career College, Bhopal

Students participated enthusiastically in the event and around 21 students were present along with the faculty members of the department.

Lecture on Water Sanitation and Hygiene

Safe drinking-water, sanitation and hygiene (WASH) are crucial to human health and well-being. Safe WASH is not only a prerequisite to health, but contributes to livelihoods, school attendance and dignity and helps to create resilient communities living in healthy environments. Safe water and better hygiene reduce the burden of ill health on families and allow women more time to earn their own income. An end to open defecation means people are safer – particularly at night – and the land is cleaner and the crops healthier. Education programs teach school children good hygiene habits. A Lecture on Water Sanitation and Hygiene was organized by Department of Microbiology on 17/10/2021. The expert for the lecture was Dr. Reena Antony, Career College, Bhopal. The lecture was very informative and fruitful. Students participated enthusiastically in the event and around 53 students were present along with the faculty members of the department.

Date:17/10/2021

Time:12 noon Venue: Room No:44

Organized by
Dept of Microbiology
Career College, Bhopal

Guest lecture on Food Safety & Hygiene

Food safety is about handling, storing and preparing food to prevent infection and help to make sure that our food keeps enough nutrients for us to have a healthy diet. Food hygiene is a set of food manufacturing practices that aim to minimize biological food hazards through safe and clean operations to protect public health from food borne diseases. Food safety is a management system that is applied by a food business to ensure that hazards are controlled to acceptable levels. The students got idea about the safety standards followed in industrially manufactured food products and importance of Microbiology in maintaining such standards. The training was very informative for all the participants. Dr. Kapil Soni, Assistant professor, Department of Biosciences, Barkatullah University, Bhopal, M.P.

Beat the Heat- Health awareness program

Department of Biotechnology and Biochemistry, WEC, NSS in association with NSI and MSI organized a one day awareness program 'Beat the Heat' on the occasion of World health Day under the flagship of Arogyam 'Illness to wellness' on 07/04/2022. Students performed a Nukkad Natak at Ekta Nagar,

Bhopal; through nukkad natak they explained to school going children on how they can protect themselves from the hazards of heat. They also played a health quiz with the women and kids of Ekta Nagar. After the program they distributed fruit drinks and candies to the women and kids.

Activity on Yoga for Concentration and Memory in students

Regular physical activity is one of the most important things you can do for your health. Being physically active can improve your brain health, help manage weight, reduce the risk of disease, strengthen bones and muscles, and improve your ability to do everyday activities. On 4th December 2021 Yoga and Concentration exercises were done by the students of Biotechnology and Biochemistry to enable them to follow a healthy and fit life.

PCOS, Yoga awareness and Celebration of Poshan Saptaha

WEC and the Department of Biotechnology and Biochemistry organized a one-day camp in Adopted village Sahapur. WEC in association with Nutrition Society of India, organized PCOS awareness programs for adolescent girls of Government higher secondary school of Shahpur. Students of WEC interacted with the girls, discuss about the PCOS symptoms and suggested yoga poses for overcoming the disease like. They also discuss about the importance of menstrual hygiene, use and proper disposal of sanitary napkins. Students distributed sanitary napkins to the girls and anganbadi workers to make aware

about the importance of each and every female of the village. WEC also explained the importance of nutrition and also distributed nutritious food kits to the girls of middle school of Shahpura village on the occasion of nutrition week.

ICT/ COMPUTATION SKILLS

Higher education systems have grown exponentially in the last few decades to meet the demands of quality education for all and the last two decades has witnessed the inclusion of ICTs for innovative teaching. Though it is a challenge to holistically integrate the technology in the management and delivery of learning programmes it has become absolutely necessary. It significantly contributes to good quality education and leads to improved student learning and better teaching methods. The introduction of ICTs in the college has had profound implications in the teaching process especially in dealing with key issues of access, equity, management, efficiency, pedagogy and quality. Every faculty is provided with a Samsung Tab and the class rooms have the necessary ICT required infrastructure for optimal usage of the ICT tools.

Some of the initiatives in developing ICT skills among students in this session are as follows:

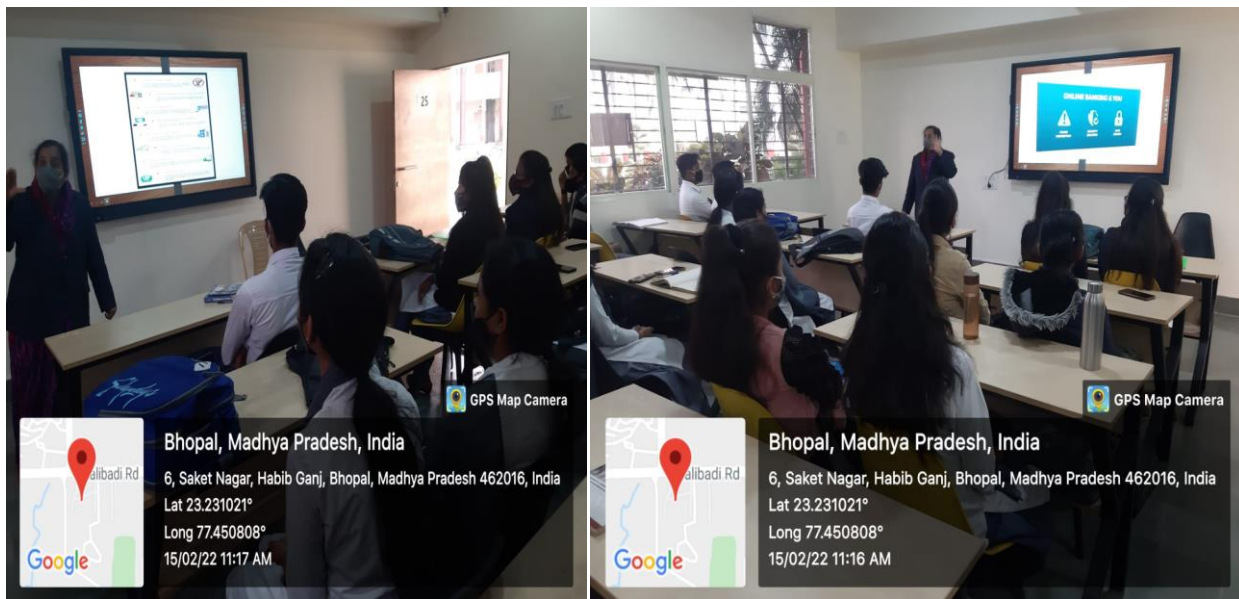

Certificate Course on Office Automation (UGC NSQF)

Office automation is general terms that describe the different types of computer systems and software that are used to collect digitally, store, transfer, alter and utilize office information to execute tasks. In essence, office automation helps to manage data. Generally, there are three basic activities of an office automation system: storage of information, data exchange, and data management. Within each broad application area, hardware and software combine to fulfill basic functions. Shedding light on all these points a certificate course on office automation was organized by Department of Commerce and Management, Career College, Bhopal in association with UGC_NSQF on 15th Feb 2022 through virtual mode. Students participated in the event enthusiastically.

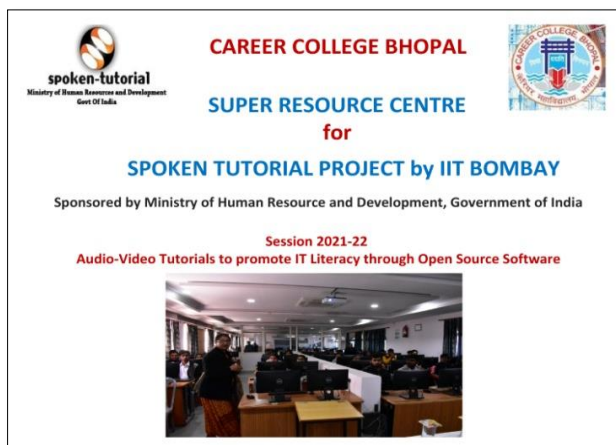

Training on E-Banking

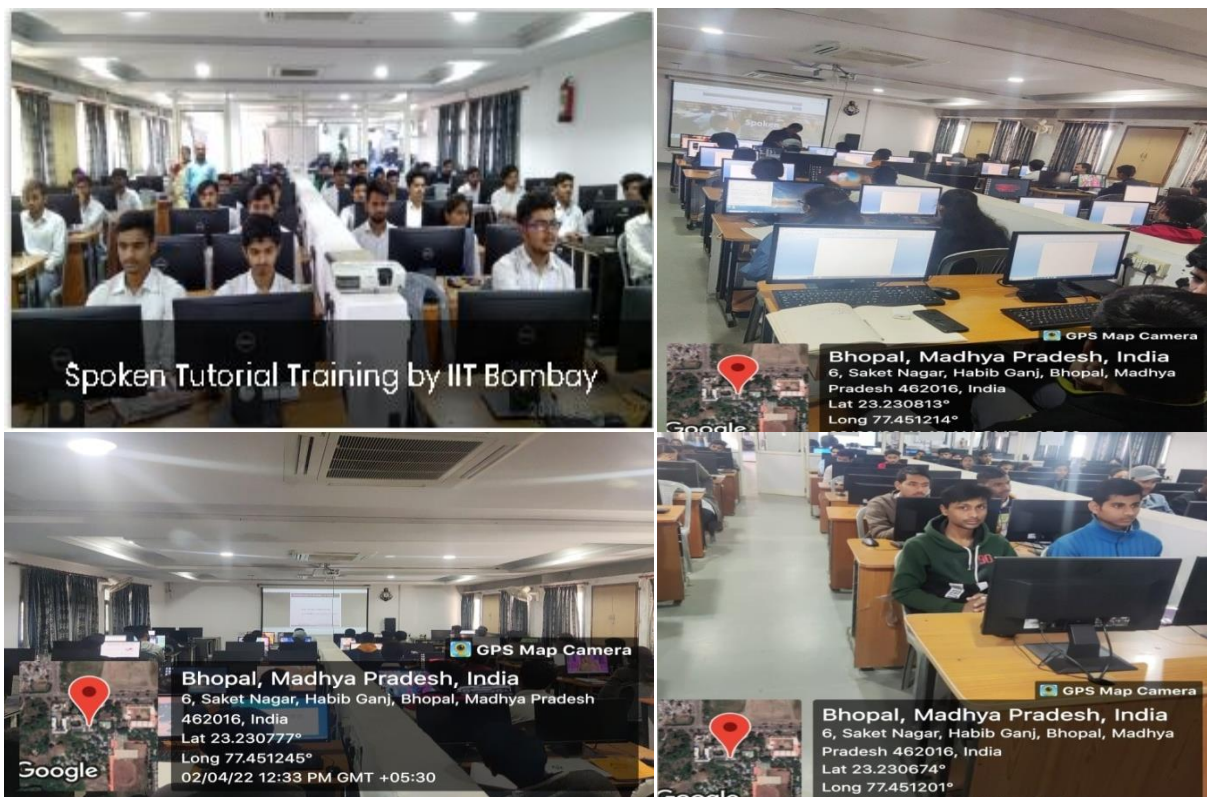

Electronic banking or E-Banking is the use of computers and telecommunications to enable banking transactions to be done by telephone or computer rather than through human interaction. Its features include electronic funds transfer for retail purchases, automatic teller machines (ATMs), and automatic payroll deposits and bill payments. It is just the utilization of telecommunications networks and electronic networks for conveying different financial services and products. Through e-banking, a client can acquire his record and manage numerous exchanges utilizing his cell phone or personal computer. E-banking provides faster delivery of banking services to customers and it provides lot benefits and banking facilities to customer that by sitting at home customer can access their account through internet. Owing to the need of these issues in current world training on E-Banking was organized by the Dept. of Commerce and management on 15th Feb. 2022 in which the resource person was Mrs. Namrata Ganguly, Assist. Prof. Department of Commerce and Management, Career College, Bhopal and around 55 students participated in the event.

Spoken Tutorial

IIT Bombay program is an initiative by Ministry of Human Resource and Development, Govt. of India to provide platform where learners can acquire required knowledge and skills. It is a multi-award winning educational content portal. Here one can learn various Free and Open Source Software all by oneself. Career College, Bhopal is the super resource centre where UG and PG students are trained on various modules for developing their ICT skills.
