

Career College Bhopal Analysis of feedback on curriculum Session: 2021-22

The college strictly follows its policy of collecting feedback (preferably online) with various stakeholders such as alumni, industry, employers, research agencies, parents, faculty members and students to identify areas of improvement in curriculum, infrastructure, support facilities, academic etc. The feedback from industry was also collected to test the employability skills of delivered curriculum and the strategies. Feedback was analyzed and compiled suggestions regarding curriculum were forwarded to Board of Studies, Barkatullah University of respective subjects. To a profound pleasure, feedbacks were given due consideration and implemented as far as possible. Based on the above feedback, college always ensures to provide certain 'Short Term Certificate Course' and 'Value Added Courses' to impart value and add skills to the existing knowledge of students, IIT Bombay Spoken Tutorial, IGNOU, courses from NSQF, SWAYAM NPTEL were some of them. Suggestions after feedback analysis were discussed in meeting of IQAC held and appropriate action was taken for institutional progress.

❖ **Feedback on Curriculum:**

1. **Students:** Majority of the students found the curriculum up-to-the mark in relevance to global educational needs. They found guest lectures, industrial visits and short-term certificate courses as an enriched learning tool supplementing the existing curriculum to enhance employability. They suggested to conduct more internships/ trainings/and hands-on exercises for better understanding of the practical oriented subjects.

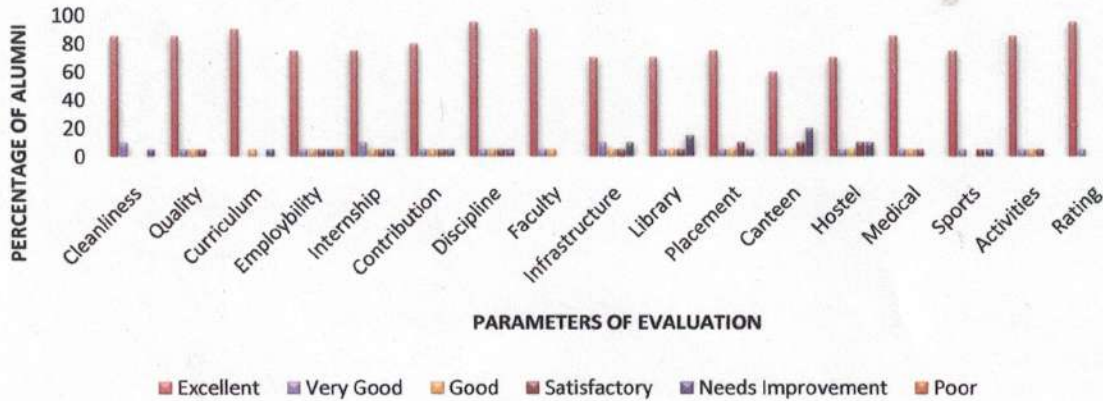

2. **Alumni: Alumni** were of opinion that although the curriculum is meeting global demands but need to be more employable and must be associated with direct placement strategies. According to alumni, co-curricular activities were par excellence and in complete relevance to continue uninterrupted learning and enhanced their personality and employability.
3. **Parents:** Parents were highly satisfied with the curriculum content and delivery. They appreciated co-curricular activities conducted quite unique for developing practical, vocational and employability skills.
4. **Faculty Members:** Faculty members considered the syllabus relevant with changing status of education but suggested inclusion of practical in accordance with the theory or some new emerging topics in the syllabi for better understanding and coordination with subject choices as per NEP-2020.
5. **Employers :** Employers elicited their contentment with the curriculum and the deliver. Students whom they employed had a good knowledge of subject. They just opined to expand practical skills in curriculum and more exposure to communication skills including non-verbal for effective presentations while interview.
