Entrepreneurship Development Program

During the lockdown, it was difficult for the students to find jobs and earning resources, to overcome this problem and to make them aware about entrepreneurship development, the department in collaboration with EDIC organized an Entrepreneurship Development Program on 11th July 2020. Resource person for the program was Mr. Aditendra Jaiswal (Srijan Sanchar) Dr. Shweta Singh (Ennoble IP, Women, Innovation and Entrepreneurship Foundation) from, Nagpur. They explained students about how to get seed funding, importance of angel investors and other aspects of entrepreneurship.

DNA: Life and Human Diseases

Date:13/09/2020

Department of Microbiology, Career College, Bhopal organised a webinar on DNA: Life and Human Diseases by Dr Chitra Thakur, Asst. Professor Research, Wayne State University, Detroit, Michigan, USA on 12 Sept 2020. Recombinant DNA technology has applications in the analysis of an ever-increasing number of genetic disorders. Dr. Chitra discussed the basic genetic principles underlying recombinant DNA techniques, their general approach to analyzing genetic disorders using these methods, and finally the practical applications of DNA analysis in genetic disease. The talk was highly informative and appreciated by all.

Seminar on "DNA Profiling and Bioinformatics"

A one day virtual seminar was organized for the students on **28th October, 2020** by the Department of Microbiology, Career College, Bhopal through Google Meet. The Seminar was focused to introduce students to basic techniques behind DNA Profiling and Bioinformatics.

The seminar was divided in 3 sessions:

Session1:

DNA Analysis and its applications by Dr. Aagosh Verma-Asst. Professor (Microbiology), Career College, Bhopal

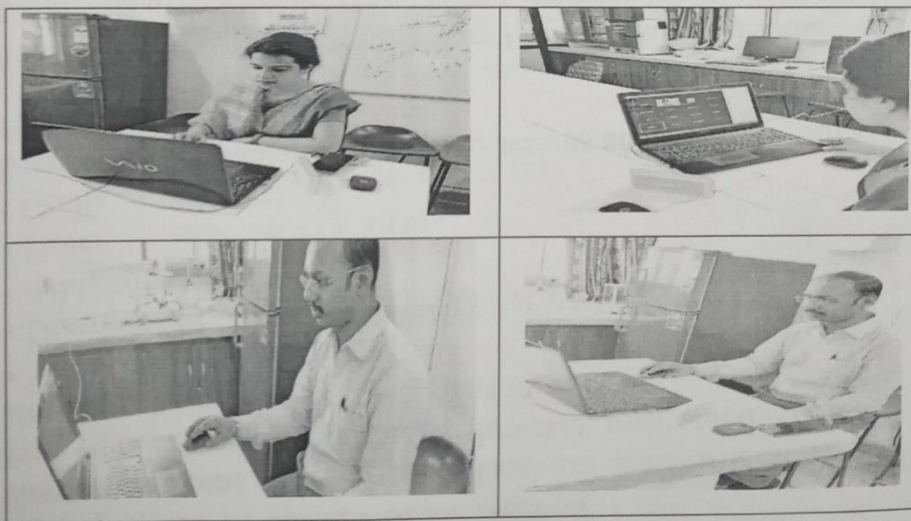

Session 2:

Bioinformatics and Software tools by Dr. Bhupendra Prasad -Asst. Professor (Microbiology), Career College, Bhopal

Session3:

Audio-Visual session to explain the intrigues of Molecular biology and its Application.

Overall the seminar was highly appreciated by all attendees.

Webinar on “Impact of Microbial variability on food safety and quality”

Department of Microbiology, Career College, Bhopal organised a webinar on “Impact of Microbial variability on food safety and quality” by **Vikas Agnihotri, Technical Director, Swastik testing laboratory, Indore** on 4 Sept 2020 at 1:30 pm through zoom. Mr Agnihotri explained the term microbial variability and how the multiplication of certain microorganisms in foods prior to consumption may result in production of toxins, e.g., *Clostridium botulinum*, *Staphylococcus aureus*, and *Bacillus cereus*. He also proposed that the integration of strain variability in prediction of microbial kinetics is, therefore, required in quantitative microbiology to obtain a more realistic prediction; and the most robust strains can be used in parallel or in cocktails to evaluate the efficacy of certain steps along the food production chain in controlling the growth. The webinar was attended by many participants from Kerala, Bhopal, Indore, Bihar etc. The talk was highly informative and appreciated by all.

by

Dr. Rahul Solanki

Premas Lifesciences, Mumbai

Saturday, 6th February, 2021 10:30 AM

National Workshop On Next Generation Sequencing

Department of Biotechnology and Biochemistry in association with Premas Life Sciences, Mumbai organized an online National Workshop on Next Generation Sequencing. The resource person was Dr. Rahul Solanki, Pramas Lifesciences, Mumbai. Dr. Solanki gave an in-depth insight on primer design, principle of next generation sequencing, the construct and the working of the Next Generation sequencers. Students interacted with the resource person in the query clearance session and got their queries cleared.

The screenshot shows a presentation slide with the following content:

Automated Capillary Sequencing: 1986

- Mixture of unlabeled and P-labeled chain-terminating ddNTPs
- Incorporation of terminating ddNTP prevents further extension
- Varying length fluorescent DNA fragments generated
- DNA fragments separated by capillary electrophoresis
- Fluorescence detected by laser
- Each DNA fragment with the same length is detected at the same time

Diagram illustrating the process:

1. Reaction mixture
2. DNA synthesis
3. Capillary gel electrophoresis
4. Laser detector

Topic- Intellectual Property as a tool to protect innovation

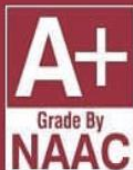

Resource Person- Dr. Amita Arjariya

Date – 02.06.2021

With blessings of honourable Chairman Sir and with support and motivation of respected Vice-Chairman Sir, respected Principal Madam, and respected Director Sir a Webinar on “Intellectual Property as a tool to protect innovation” was organized by Department of Paramedical. The Eminent guest Speaker was Dr. Amita Arjariya, HOD of industrial microbiology in Govt. Maharaja college, Chattarpur.

In this well attended webinar Dr Arjariya threw light on how IPR used as a tool to protect innovation. This is a subject in which we should all be deeply interested because without protection of ideas businesses and individuals would not reap the full benefits of their inventions and would focus less on research and development. It was really nice experience to have information on the topic. Faculties, Research Scholars and Students of UG and PG level enjoyed the session which was enriched with knowledge, inspiration and motivation.

IDEATHON 1.0: Mind to Market-An initiative towards Atma Nirbhar Bharat

On 28th and 29th June 2021 Department of Biotechnology, Biochemistry and EDIC, Institution's Innovation Council, Career College, Bhopal in association with Microbiologists Society, India and a-idea, Centre for Agri-Innovation, ICAR- NAARM, Hyderabad organized an innovative event and competition 'IDEATHON 1.0: Mind to Market - an initiative towards Aatm Nirbhar Bharat' for science and technology students to showcase their ideas and inspiring talents.

Dr. Preeti Chandurkar started the event with the presentation of the theme. Dr. Arvind Deshmukh, President, Microbiologists society, India addressed the gathering and gave his blessings and best wishes. Shri Manish Rajoria, Vice Chairman, Career Society welcomed the guests and explained how essential it is to develop young minds towards entrepreneurship. Dr. Charanjit Kaur, Principal, Career College, Bhopal gave insights on how the college aids each and every budding students with potential ideas and provides support to develop them into leaders and entrepreneurs their by playing an essential role in reshaping the future of Nation. The keynote speaker of the event Prof. Pradeep Kumar Mishra, Vice Chancellor, Jharkhand University of Technology, Ranchi, spoke on Startups and the role of institutional incubation support along with entrepreneurial characteristics. 200+ participants joined this event. The session was concluded by vote of thanks by Dr. Anjali Choudhary, coordinator, EDIC and HOD, Biotechnology, Career College, Bhopal.

On second day Dr. Nidhi Tripathi and Dr. Nidhi Gujar coordinated the session and welcomed the judges of the Ideathon competition Dr. Manisha Acharya, Mentor and Advisor-Startups and Incubators, Ex-CEO Indigram Labs Foundation, Delhi and Dr. Dipika Murugkar, Principal Scientist, CIAE-ICAR, Bhopal. Dr. Charanjit Kaur, Principal, Career College, Bhopal initiated the competition with her blessings. A total of 23 groups gave their nominations out of which 8 Groups were finalized for presentation of their ideas in front of the judges. The Vote of thanks was given by Ms. Tanuja Murab in the concluding session. The winners were presented certificates and given cash prizes in which VIT, Bhopal students group namely Ms. Bhavana Girish, Ms. Jahanvi Gurnani, Ms. Khushi Gupta and Ms. Rajini Mukherjee bagged first prize. The second prize was bagged by Amity University Kolkata student, Mr. Sagnik Nag and the third prize was won by students group of Sant Hirdaram Girls College, Bhopal Ms. Agna Rose John and Ms. Mariya Javed. This innovative event was appreciated by the participants and delegates for the efforts of the departmental faculties as well as the college in providing a platform to the young and budding minds.

Don't just be a designer, be a designer with a mission!

Students in this competition are required to identify various problems related to sustainable development goals. These problems could be identified in the urban areas or in the rural interior regions. Students may form a team of maximum 5 people. The group has to analyse certain social problems. Problem may be related to environment, population, unemployment, hunger, poverty, extensive usage of plastic etc. In this competition, the students have to prepare a presentation based on the innovative solutions to address the chosen social problem. The Social Business idea may be in the form of a service, websites or product.

The Social Business idea for the identified problem should be:

- Innovative
- Creative
- Topical
- Pragmatic

- Well defined and innovative solutions to the problems
- Clearly laid out a business plan with a comprehensive financial plan

The proposed Social Business plan should be comprehensive and should consist of:

- A creative and innovative title
- A well-researched and defined problem

The rules of the competition:

- Time allotted for presentation 5 minutes
- Maximum slides expected 5
- Best three ideas will be suitably acknowledged
- Decision of the experts will be final
- All the participants will be provided with the certificates
