### Certificate

This is to certify that the project entitled “**Characterization of *Trichoderma* spp. for Biological Control of Fusarium Wilt in Chickpea (*Cicer arietinum* L.)**”, is a bonafide work done by **Mr. Vipin Singh Chouhan** at ICAR-National Bureau of Agriculturally Important Microorganisms, Kushmaur, Maunath Bhanjan-275 103, Uttar Pradesh under the guidance of Dr. Udai B. Singh, Scientist and submitted in partial fulfilment of the requirement of award of the degree of Master of Science in Microbiology at Career College, Bhopal (Barkatullah University) from January to June, 2020.

## TO WHOSOEVER IT MAY CONCERN

This is to certify that Mr. Shubham das S/O Mr. Sanjib Das Khamri has  
Successfully completed his training from February 2021 to August 2021  
On the Microbiology Department in our laboratory.

During the training period he has been punctual and hard working.

We wish him success in his life

Yours faithfully,

For: AGSS Analytical & Research Lab Pvt. Ltd.

### FACULTY DEVELOPMENT PROGRAM (FDP)

ON

## Interdisciplinary Approaches to Promote Sustainability using Green Technology (IASGT-2020)

September 16-20, 2020

Organized by

Department of Chemistry (HEAS)

UNIVERSITY COLLEGE OF ENGINEERING & TECHNOLOGY, BIKANER

Constituent college of  
BIKANER TECHNICAL UNIVERSITY  
RIICO Karmi Industrial Area, Pugal  
Road, Bikaner-334004  
[btu.ac.in](http://btu.ac.in)

### ABOUT TEQIP-III

The project, third phase of Technical Education Quality Improvement Programme (referred to as TEQIP-III) is fully integrated with the twelfth five-year plan objectives for technical education as a key component for improving the quality of engineering education in existing institutions with a special consideration for low income states and special category states and support to strengthen few affiliated technical universities to improve their policy, academic and management practices.

### ABOUT BTU, BIKANER

The University was established in 2017 in the camel city of Rajasthan, Bikaner with an aim of providing top professionals, BTU has evolved into one of the leading University in Rajasthan. BTU is committed to provide a transformative learning experience in a collaborative and diverse environment with essence of human values. The university's focus on advanced learning equipment, research, hi-tech laboratories give students a feel of practical and immersive education. BTU has over 40 affiliated colleges and one constituent college University College of Engineering and Technology. The university runs AICTE approved programs in various emerging specialization as per demand in industry

### ABOUT UCET, BIKANER

University College of Engineering & Technology, Bikaner (formerly known as Government College of Engineering & Technology) is a constituent College as well as campus college of Bikaner Technical university and was established in the year 2007. The college is TEQIP institute and provides various academic facilities to its students as well as faculties. The College focus on multi-dimensional development of students through focusing on teaching pedagogy, classroom sessions, workshops, seminars expert lectures, conferences, Sports, Industrial visits, campus events, hi-tech labs digital library wi-fi campus and faculty Quality Improvement Programmes.

### ABOUT HEAS (CHEMISTRY)

The role of Humanities, English and Applied Sciences Department in modern engineering education is just as "a strong foundation is needed for a strong building". The department is very well equipped and aware that promising Engineers of future are taking shape with it.

### ABOUT FDP

During the past half century, we are exploiting our natural resources without thinking of our future generations therefore; they might not be available for our off-springs. Our concept of need and greed for more shattered our mother earth and ecosystem badly. Considering the huge threat to our civilization, the pressing priority is to revive our nature and help her to heal herself. With this aim, our current endeavor is to provide a collective platform to our interdisciplinary faculties to enhance their abilities and skills by getting knowledge and experience from eminent scientists and esteemed academicians of India. This programme primarily focuses on interdisciplinary approaches to promote sustainability through green technologies. As we know that world leaders have promised to end poverty, reduce inequalities, and tackle climate change by 2030 as part of the Sustainable Development Goals (SDGs). Therefore, through this FDP we want to enlighten our colleagues, teachers and budding researchers by exploring emerging areas of education, science, and technology with their future opportunities.

### THEMES

- > Renewable sources of energy savings and Green ICT
- > Sustainable energy production and Sustainable cities
- > Clean technologies and Pollution Monitoring & Control
- > Water and Air Treatment and Green computing
- > Green Power Tech and Green Electronics devices

### ELIGIBILITY

The FDP will helpful for research scholars, Faculty members and research scientist of various Institutes/organisations/ universities and industrial persons.

9. Hypothesis-testing

- After analyzing the data as stated above, the researcher is in a position to test the hypotheses. If any, he had formulated earlier. Do the facts support the hypotheses or they happen to be contrary? This is the usual question that should be answered while testing hypothesis.
- Hypothesis-testing will result in either accepting the hypothesis or in rejecting it.
