

Government Scholarships:

The Government of Madhya Pradesh has its own state scholarship portal to enlist all its scholarship schemes available for the students belonging to Scheduled Caste (SC), Scheduled Tribes (ST) and Other Backward Classes (OBC). These Scholarship Schemes were solely put forth to offer financial support to the economically weaker students from the ST, SC & OBC Communities and enable them to pursue various career oriented courses after matriculation. The main objective of the scheme is to provide financial assistance to these students having lower social status together with providing them with day-to-day expenses while pursuing higher studies.

Due to the COVID-19 pandemic, the admission process was delayed in the session 2020-21. In turn, the scholarship process was also delayed. To keep a check on the expenditure, the Govt. has changed the scholarship forms scrutiny. The forms filled and forwarded from the college are sent to the Nodal Centre for processing/approvals further the attendance of the students is procured from the college and then sent to the Govt. for final approvals. As on date the final disbursement is still under process.
