

Sports and cultural activities/events

Co Curricular activities play an important for the holistic growth as well as development of the students; academics should be always supplemented with co-curricular activities.

Cultural Activities act as a catalyst for overall personality development of students by grooming them for their future career and life. Career College, Bhopal has a rich heritage of nurturing, nourishing and showcasing talents in the cultural, and other related activities. For this a Cultural Cell has been devised in the college for monitoring all these types of activities.

The need of today's age is to develop versatility among students. Only academic progress is not sufficient for the students today. To develop all-round personality, the participation of students in different extracurricular activities including many cultural activities is necessary. To increase the participation of students in different cultural activities, the Cultural Cell has been formed.

Cultural Cell of the Career College works with great enthusiasm. The students participate and achieve success in many cultural events including Performing Arts, Literary Events on College, University, State and National Level. Continuous encouragement and necessary guidance is provided to the students to participate in various activities. The Cultural Cell tries to inculcate and sustain the Social and National Values along with the development of various arts and skills among the students. Many events organized and participated under Cultural Cell boost the Inter-personal skills like Leadership, Time Management, Organizing Ability, Problem Solving etc. of the students. Through all this the students ultimately develop a well-groomed personality which enables them to make their bright future.

Physical education is also an integral part of educational programme designed to promote the optimum development of an individual. It makes us emotionally, mentally and physically strong. The primary aim of physical education varies based on the needs of the time and place. A sport event is commonly defined as an organized, competitive and skillful physical activity requiring commitment and fair play.

Career College, Bhopal is keen to implement programs to promote excellence in sports. For this a cell has been devised to support and nurture the talent in youth, and provides them with requisite infrastructure, equipments, scholarships and competition exposure.

Mothers Day celebration
‘My outstanding mother’

Date: 09/05/2021

WEC and Dept. of Biotechnology & Biochemistry online celebrated Mother’s Day 2021 as it was the time of COVID-19 pandemic and lockdowns. After 2020, we were reminded of how important it is to stay connected with those we love. That goes double for our mothers. Keeping that in mind, WEC shared an online link to our beloved students, students share their thoughts in the form of poem, slogan etc. and earned a certificate in the name of their mother. 167 participants participated in this event.
